

Permanent Disability Tables At Maximum Rates

LC § 4658(d)(2): **(Plus) +15%** - Increase is due 60 days (8 weeks) after PD Benefits start: e.g., 03% PD (09 weeks), the increase only includes the ninth week's payment. Not an increase for the total weeks due.

LC § 4658(d)(3): **(Minus) - 15%** - This chart assumes that a job offer has been made when PD Benefits start.

→ Formula To Calculate 15% Increase of PD for L.C.4658 (d)(2) ←

Step #1: Multiply PD% # of Weeks by PD Weekly Rate.

Step #3: Multiply Step # 2 result by the PD Weekly Rate.
 Then multiply by 15 % (.15)

Step #2: Subtract **8.5714 weeks** (60 days) from the PD% # of weeks

Step #4: Add the result of Step # 3 to the result of Step # 1

2006 to 2010 Example at 30%: [131 X \$230 (PD Weekly Rate) = \$30,130.00 (PD Award)] +
 [131 weeks (minus) 8.5714 = 122.4286 X \$230 = \$28,158.5780 X .15 = \$4,223.79] = \$34,353.79
